

# SNOW IGLOO

## A NIGHT IN SNOW IGLOO (in Harriniva and in Jeris)

Harriniva and Hotel Jeris both offer the opportunity to spend an exotic night in a traditional snow igloo! Igloos have been used in the Northern countries for accommodation during centuries. The temperature outside can drop down to minus thirty degrees and your double bed is made of snow, but the inside temperature stays moderate. Soft and warm reindeer skins, thick sleeping bags and hot juice ensure a warm and comfortable night. The night will be memorable!
