## Who is the ice karting champion of Muonioriver?

Exciting Go karting hits the Muonioriver ice! Challenge your friends or colleagues and battle for the championship of two countries. No earlier experience or driving license is needed.

Ice karting track is located right in front of Hotel Harriniva, on the ice of Muonioriver, which is the boarder between Finland and Sweden. The icy track is marked with snowbarriers and sticks.

Ice karting vehicles are basically the same as the ones used for indoor Go karting, only that the tires are with spikes and the engines are more effective. Anyone over 140cm long can drive, regardless of age. All necessary equipment is included in the rate: helmet, overall, shoes and gloves.
