

Lapland expedition

9-day special husky tour

For the real adventurers

You thought you knew it all in Lapland? Been there done that on all adventure tours? Then you should come and try your musher skills on our special husky safari. 250km and 9 days in arctic nature, nights in simple cabins and tents, with the last leg crossing the treeless snow desert on the Sami land, where only reindeer herders are at home. On this safari you will learn to co-operate with your own husky team of 6 dogs and have the best of the most beautiful northern landscapes and the long spring days of Lapland.

Day 1

Arrival at Kittilä airport, transfer to Muonio – Harriniva Safari Hotel. Accommodation in cosy hotel rooms or in cabins near Harriniva.

Day 2

After breakfast get together with your safari group and the guide. You receive the necessary safari equipment and information and visit the Harriniva Arctic Sled Dog Centre. It is time to pack the sleds and get a short training and safety information for driving a dog sled. Start of the safari.

Day 2-10

The safari will take you from Muonio to Kilpisjärvi, to the last village on the Norwegian boarder. The daily distances vary from 30 to 70km depending on weather conditions and the skills of the participants. During this safari we spend the nights in small wilderness huts and in tents.

The days are long and mostly warm this time of the year, we have actually already more daylight than the Central Europe! We will drive along special trails in the forest, over the frozen lakes and along the rivers. All meals are prepared together, lunch by open fire in the wilderness, breakfast and dinner in huts or tents. Each participant will also take care of his/her own dog team. On day 10 we arrive in Kilpisjärvi in the evening and spend one last night in a cabin.

Day 11

After breakfast transfer back to Harriniva by bus. This evening we will get together as the safari group once more for a delicious farewell dinner with Lappish specialities. Accommodation in cosy hotel rooms or in cabins near Harriniva.
